The Town of Belmont Village Revitalization Project will soon be underway. Busby Construction has been chosen as the contractor on the job and you will soon see a construction trailer, signage and activity in the Village. We anticipate construction to begin the week of August 6th with preliminary activity such as erecting signage, tree removal and placement of a temporary waterline on Main Street. There will be a Public Meeting for residents and businesses in the Village and other interested individuals on Tuesday, August 14, 2012, beginning at 6:00 p.m. at the Corner Meeting House in Belmont. Representatives from Busby Construction and Hoyle Tanner Engineering will be present to answer any questions regarding the upcoming schedule for construction.

Plans to move the Village Bandstand are also underway and it is anticipated that Mark Roberts of Leslie E. Roberts LLC will begin the work the week of August 6th.

We would also like to take this opportunity to advise residents and businesses in the Village that water chlorination is scheduled to begin the week of August 6th. This effort is being undertaken to insure water quality during construction of the waterline replacement in the Village. You may notice a slightly foul odor or some discoloration to
your water, but please be assured that the added chlorination poses no health risks.

School begins August 27th; we recommend during construction that parents and those bringing students to school at the Middle School take an alternate route such as Route 140 to Route 106 south, to Concord Street and then Memorial Drive. This should help avoid any delays due to construction equipment in the roadway.

Questions regarding the project should be directed to the Town Administrator’s office at 267-8300 or by email at TownAdministrator@belmontnh.org. The Board of Selectmen, Town Administrator and Public Works Director are available to answer any questions that arise during the project. Also on site during most of the construction will be a representative from Hoyle Tanner who will be the onsite project representative. Her name is Elizabeth “Liz” Ziegler and she will become a very familiar face to everyone during the project.

We would also like to take this opportunity to remind everyone of the Special Town Meeting to be held on Tuesday, August 21, 2012 beginning at 11:00 am – 7:00 pm in the Belmont High School Cafeteria. Voting will be by ballot on 2 articles; the closure of a portion of Mill Street and authorization for the Board of Selectmen to negotiate the purchase of the former Northway Bank Building for a price not to exceed $250,000. No appropriation is needed for the purchase as funds have been previously set aside in a Capital Reserve Fund.

Date of Notice: July 31, 2012
