

Volunteer Opportunity

SATURDAY May 19th 8:30AM till 4PM
Route 140, 2.7 miles west of Main St in
Belmont, NH *Rain or Shine!*

The Belmont Conservation Commission contracted the Student Conservation Association (SCA) to eradicate the non-native, invasive Glossy Buckthorn plant from on the Tioga River Wildlife & Conservation Area. The SCA's Six-Person Team will return this month to work a 10-day hitch, helping control the Buckthorn. This Conservation Parcel has the highest rated Wildlife Habitat in Belmont.

If you would like to make a difference by helping to protect the ecological integrity of this property, please join us to eradicate this invasive plant.

Please READ & UNDERSTAND the [“PREPARING FOR A DAY OF CONSERVATION SERVICE WITH THE SCA”](#) and SIGN AND BRING the [“ACKNOWLEDGEMENT AND RELEASE”](#) (if you're under eighteen, you will need a parent or guardian to sign and accompany you). [Click Here](#) to download these documents or pick up copies at the Land Use Office at Belmont Town Hall.

- Make sure you bring gloves, plenty of drinking water, a lunch & snacks
- If you have a spade, shovel or grub hoe, bring it...
- This is hard, physical, rewarding work!
