Copies of the DHR evaluation forms are attached for your use. Please refer to the “Follow-up” section for an explanation of the additional data needed for the “more information” requests. The inventory data and the evaluations will also be added to the statewide survey database for historic properties in New Hampshire.

Please call if you have questions.

Sincerely,

Since the 1920s, this property has served as a historic commercial purpose in the village, first as a gas station and now as a hardware store. Is a construction date available for the hardware store building? If it is more than fifty years old, this property would be a contributing resource in the district.

STATEMENT OF SIGNIFICANCE:
☒ IF THIS PROPERTY IS REVIEWED IN THE FUTURE, ADDITIONAL DOCUMENTATION WILL BE NEEDED.

This property is just less than 50 years old and appears to lack the exceptional significance needed to qualify for the National Register. As an intact example of a mid-20th century cape with Colonial Revival detailing, it could be reviewed again in the future for eligibility. At that time, it could be noted why the wing and garage are later additions.

**STATEMENT OF SIGNIFICANCE:**

☐ IF THIS PROPERTY IS REVIEWED IN THE FUTURE, ADDITIONAL DOCUMENTATION WILL BE NEEDED.

This monument appears to be just within the Factory Village Historic District. It was erected in 1919, during the district's period of significance, to honor village veterans, by the long-time manager of the Belmont Mill.

Please verify that the monument is within the district's eligible boundary and in its original location. Was it moved when the former platform/bandstand was removed? Was the monument's historic setting altered? A short justification of why this object contributes to the Factory Village Historic District is needed (or why not). Monuments that contribute to a district do not need to meet criteria consideration F for commemorative properties.
