Dear Don,

The committee met last night, discussed the pros and cons of the property acquisition, and took a walk around the building. An informal vote was taken, and it was felt by most that not enough is known by us (to answer a number of questions that we have) to formally endorse the purchase. We wish there was more time (as I know you do) to study this new option. The feeling is that this plan should be presented by the selectmen and you, to the people, and let them decide what should be done.

Thank you for giving us the chance to discuss this. I will be unable to attend Wed meeting, and did not hear anyone say that they will be there either. Good luck in this endeavor.

Ken
