BELMONT — The Town of Belmont Village Revitalization Project will soon be underway and the Special Town Meeting is only weeks away.

Busby Construction has been chosen as the contractor on the job and those venturing into Belmont will soon see a construction trailer, signs, and activity in the Village.

The town anticipates construction to begin the week of Aug. 6, with preliminary activity such as erecting signs, tree removal, and placement of a temporary waterline on Main Street.

A public information meeting will be held on Tuesday, Aug. 14 at 6 p.m. at the Corner Meeting House for residents and businesses in Village.

Representatives from Busby Construction and Hoyle Tanner Engineering will be present to answer any questions regarding the upcoming schedule for construction.

Plans to move the Village Bandstand are also underway and it is anticipated that Mark Roberts of Leslie E. Roberts LLC will begin the work the week of Aug. 6.

The town is also advising residents and businesses in the Village that water chlorination is scheduled to begin the week of Aug. 6. This effort is being undertaken to insure water quality during construction of the waterline replacement in the Village.
Residents and businesses on the town water supply may notice a slightly foul odor or some discoloration to their water, but the town is assuring that the added chlorination poses no health risks.

With the school year beginning on Aug. 27, the town is recommending that during construction, parents and those bringing students to school at the Belmont Middle School take an alternate route, such as Route 140 to Route 106 south, to Concord Street, and then Memorial Drive. Highway officials believe this detour should help avoid any delays because of construction equipment in the roadway.

Questions regarding the project should be directed to the Town Administrator’s office at 603-267-8300 or by email at beaudin@belmontnh.org. The Board of Selectmen, the town administrator, and Public Works director are available to answer any questions that arise during the project.

Also present during most of the construction will be Elizabeth “Liz” Ziegler, the onsite project representative from Hoyle Tanner, who expects to become a very familiar face to everyone during the project.

The town would also like to remind residents of the Special Town Meeting to be held on Tuesday, Aug. 21 beginning at 11 a.m. and ending at 7 p.m. in the Belmont High School Cafeteria.

Voting will be by ballot on two articles; the closure of a portion of Mill Street and authorization for the Board of Selectmen to negotiate the purchase of the former Northway Bank Building for a price not to exceed $250,000. No appropriation is needed for the purchase as funds have been previously set aside in a Capital Reserve Fund.
