The Belmont Budget Committee has completed their initial review of the 2016 proposed budget. They will be meeting on Tuesday, January 5, 2016 to discuss the proposed capital budget, default budget, Sunray Shores proposed budget and an overview of proposed revenues. The meeting will be at 6:30 p.m. at the Corner Meeting House. The first public hearing on the proposed budget will be held on Tuesday, January 12, 2016 beginning at 6:30 p.m.

Deliberative Session, January 30, 2016
10:00 a.m.
Belmont High School Cafeteria

We will be sending along a supplemental email following the January 12th public hearing which will contain the proposed warrant for discussion at the Deliberative Session.

In 2013, the Town purchased a covered pedestrian bridge from the City of Dover for $1. It was transported to Belmont by Leslie E. Roberts, LLC. On Tuesday, December 8th, a section of the bridge was placed over the Tioga River behind the Belmont Mill. The bridge section was moved from the Belmont Highway Department to the site and placed across the river by Leslie E. Roberts, LLC. (Mark Roberts and sons). Volunteers have been working at the site since early fall to prepare it for the bridge placement. During the placement of the bridge we heard numerous stories regarding Slippery Rock which is just below the bridge. We are hoping you can send along your stories of Slippery Rock to the Board of Selectmen at belmontbos@belmontnh.org. We look forward to your submissions.

IT is the LAW! (RSA 466:31 II (c))

We would like to remind all Dog Owners of the importance of picking up your dog’s waste from property not your own. The town installed at three different locations, dog waste stations where you can obtain a plastic bag to pick up the waste and deposit it in the numerous garbage cans located in the Village.

The Belmont Board of Selectmen are on Facebook, look for us at Belmont NH Selectmen; we will be posting information about our upcoming meetings, minutes of meetings, general notices about happenings in Town and we are looking for “friends”.

Just a reminder that Town Hall will be closed on Monday, January 18th, 2016 for Martin Luther King Day. Town Hall will open on Tuesday morning, January 19th at 7:30 a.m.

Your feedback is always welcome and if my office can be of assistance, please do not hesitate to contact me at townadministrator@belmontnh.org.
Planning and Zoning News

January, 2016

Applications

Planning Board

- Fay's Boatyard: Approval for Boat Storage, Sales & Service, 15 Dutile Road.
- Belmont-Penguin Real Estate Holdings, LLC: Approval for Retail site approval amendments related to Propane, Cooler, Canopy, Retaining Wall & Parking, 916 Laconia Road.

Zoning Board

- East Coast Militia: Denial of outdoor recreational facility (motocross track and related parking), 516 Depot Street and 512 Depot Street.
- Aris Kopoulos for Winnisquam Beach Campground Unit Owners' Association: Approval for RV and free-standing roof closer to road than allowed, 7 Berkshire Drive.
- Quain Trust: Approval for a single-family dwelling in a Commercial Zone occupied by the owner of an on-site business and members of his/her immediate family, 930 Laconia Road.

Other Land Use News

A petitioned zoning amendment has been submitted for the 2016 Town Ballot. As required by law, the Planning Board will hold a public hearing on the petitioned amendment and will then vote whether or not to support the proposed amendment and a statement of their decision shall be placed on the ballot. The petition will go before the voters on Tuesday, March 8, 2016.

The Belmont Planning Board will hold a public hearing commencing at 5pm on Wednesday, January 6, 2016, in the Belmont Corner Meeting House, 16 Sargent Street, concerning a Petitioned Amendment to the Belmont Zoning Ordinance to prohibit all industrial uses in the Aquifer and Groundwater Protection District. Full-text amendment below and also available at the Town Clerk's Office and Land Use Office in the Town Hall, the Belmont Library and at www.belmontnh.org.

The protection of the aquifer in Belmont is of vital importance to all the citizens of Belmont. Allowing industrial development over the aquifer creates greater risk of potential pollution of the aquifer. For this reason, we the undersigned, duly registered voters of the Town of Belmont, do:

1. Petition the Selectman of the Town of Belmont, pursuant to NH RSA 675:4, to amend the Belmont Zoning Ordinance in the manner set forth below.

Are you in favor of the adoption of Amendment No.1 as presented by petition for the Belmont Zoning Ordinance as follows:

Amend Section 7. H. PROHIBITED USES, by adding the following paragraph:

16. Industrial Uses as set forth in Article 5, Table 1.

Visit www.belmontnh.org/agendasminutes.asp to view agendas and minutes for all meetings. Please do not hesitate to contact LandUse@belmontnh.org or 267-8300 x 119 for any assistance!
Our Lady of the Angels Catholic School

On December 1, 1958, a fire broke out in the basement of Our Lady of the Angels Catholic school in Chicago, educational home to approximately 1,600 students in Kindergarten through 8th grade.

While legally in compliance with the fire safety laws of the time, the school was woefully unprepared for any kind of fire. There was only one fire escape, no sprinklers, no automatic fire alarm, no smoke or heat detectors, no alarm connected to the fire department, no fire-resistant stairwells and no fire-safe doors from the stairwells to the second floor.

Was It Arson?

Although the cause has never been officially determined, all indications point to arson. A boy (age 10 at the time, and a fifth grader in room 206) later confessed to setting the blaze, but subsequently recanted his confession. He was more afraid of confessing to his mother and step-father than to the police. Officially, the cause of the fire remains unknown.

The fire started in the basement sometime between 2:00 and 2:20 that cold December afternoon, in a cardboard trash barrel at the foot of the northeast stairwell.

The fire burned undetected for an estimated 15 to 30 minutes, gradually filling the stairwell with super hot gases and smoke. In the intense heat, a window at the foot of the stairwell shattered, giving the smoldering fire a new supply of oxygen.

The wooden staircase itself burst into flames and, acting like a chimney, sent super hot gases, fire and smoke swirling up the stairwell. The first floor landing was equipped with a heavy wooden door which effectively blocked the fire and heat from entering the first floor hallway. But the second floor landing had no doors - the fire, smoke and heat were free to roam the second floor halls at will.

As the fire was climbing (consuming) the stairway, a pipe chase running from the basement to the cockloft above the second floor ceiling gave the superheated gases a direct route to the attic, where the temperature rapidly rose higher and higher until it finally reached ignition temperature.

Eighty-seven children and three nuns died on December 1, 1958 as a result of the Our Lady of the Angels fire. Three more critically injured children died before Christmas followed by two more in 1959, the last one on August 9. In the end, 92 children and 3 nuns perished, bringing the ghastly death toll to a staggering 95. Fire Safety requires vigilance. We must continue to ensure that occupancies where we work, play, sleep, and go to school are at or exceed minimum fire & life safety standards or history is destined to repeat itself.

SOG REVIEW

Starting this month, the BFD Times will have a new feature called “SOG Review.” Each month we will identify one department SOG to review and discuss. Officers are encouraged to review each SOG presented with their crews and to enter a training record into Firehouse when completed. This month we will discuss SOG OPS 10-001 Initial Fire Attack. This SOG is rated as a HRLF event and is therefore considered a critical document. The purpose of the SOG is to outline guidelines for initial attack during fire operations. As we are all aware, each and every fire incident is unique, and as such, we must quickly conduct a risk-benefit analysis before beginning any operations. This SOG provides responders with a tool to assist them with this analysis. One of the most important concepts of this SOG is for the responders to determine if victims are known to be or suspected to be in the hazard zone and are unable to self evacuate, and in the opinion of the officer in charge, the situation is tenable (safe). If the responders determine that this is the situation, every effort will be made to safely rescue the victims prior to having the minimum number of personnel (4) on scene. If the situation is that all viable victims are accounted for and the situation is untenable, initial operations shall begin from outside the imminent hazard area until such time there are sufficient personnel on scene to safely proceed within the hazardous area. This is not an easy decision for most of us as we want to be aggressive firefighters and always attack the fire. The key to this SOG is determining if the situation is tenable or not. To make this decision, the OIC must consider the extent and location of the fire upon arrival, building construction, available resources and responding resources, and most importantly what is the probability of success. To successfully complete this task responders must be familiar with buildings in their response area (in our case, this is the entire town), available water supply, and district run cards. This is one reason why pre-planning and shift training is so critical. Take a few minutes each shift to review some occupancies and discuss how to apply this SOG to each occupancy!
We left our last discussion with the definition of professional development. Now we will take a look at some of the tools we may use to achieve our professional development goals.

Henry Ford has been quoted as saying, “If you always do what you’ve always done, you’ll always get what you’ve always got.”

Our current system promotes leadership by the oldest (most experienced) of our group. Without taking anything away from anyone, we can identify those leaders who are excellent tacticians and Incident Commanders. But would you trust them to manage your bills? On the other hand, we can all identify leaders who really understand business and know how to work a boardroom. But would you trust them to command a dumpster fire?

Our current education and training system is moving away from the redundancy found in requiring students who take a course through their department training division to then repeat the same material for college credit. This was a traditional waste of resources.

The U.S. Fire Administration (USFA) is working collaboratively with the fire and emergency services professional development community to standardize training, education, experience and certification activities and create a national, competency-based professional development system. The national system will help to eliminate duplication of efforts and enhance the overall professional development of the fire and emergency services.

Education: The National Professional Development Model and Matrix and the Fire and Emergency Services Higher Education (FESHE) standardized courses were developed as our guides to professional success. You may find them at http://www.usfa.fema.gov/training/prodev/about_feshe.html.

Over 80 colleges and universities have been recognized by USFA for their commitment to teaching the standardized core courses to achieve the rigorous learning outcomes defined by the FESHE curriculum committees.

Education and training go hand in hand. How many chapters did you read or lectures did you attend before you were allowed to hit the training ground? Education without training remains only theory. We all agree that responding to life-threatening incidents without training or education only ensures chaos and disaster.

Find out more by going to http://www.usfa.fema.gov/training/prodev/.

10:30am Storytime

LEGO Club is meant for children older than six though we do have a small collection of DUPLOs and QUATTROS. Storytime focuses on children under the age of six or not yet in school, but families are welcome. Surprise Saturday will be meant for the whole family.

Library Resource of the Month

Want to improve your genealogy game? Ancestry Library, offered exclusively in the library building, delivers billions of records in census data, vital records, directories, photos, and more.

Ancestry Library Edition brings the world’s most popular consumer online genealogy resource to your library. It’s an unprecedented online collection of individuals from North America, the United Kingdom, Europe, Australia, and more.

Answers await everyone—whether professional or hobbyist, expert or novice, genealogist or historian—inside the more than 7,000 available databases. Here, you can unlock the story of you with sources like censuses, vital records, immigration records, family histories, military records, court and legal documents, directories, photos, maps, and more.

Building Update

The trustees now have a plan in place to repair the water damage to the basement children’s room. The work will be underway shortly. Please be patient as we work to make the space available again.

Book Group

1/22 10:30am
1/26 6pm

If you love the ancient charms of the Italian coast on the Ligurian Sea, if you long for Edinburgh and its cold rain and distant hot sun, and if you love stories of the dream factory that is Hollywood, you will not be able to part from this book until you are finished reading it. Even then, for months afterward, you’ll keep it close so you can reread a passage here and there that moved you.

It’s all here, the illusion and reality, the joy and the shame of the creative life, of life itself. The ingénue Dee, the producer Michaeli, and the D-’girl Claire take you into the world of making movies, the expectations and disappointments, and in an ingenious turn, the author pins the hern of the action with real Hollywood stars, Elizabeth Taylor and Richard Burton, who are engaging in a drama of their own in Rome.

Jess Walter has quietly and expertly built a career over six novels that puts him at the forefront of great American writers. Beautiful Ruins is the emerald among the pebbles.

An amendment to the Belmont Zoning Ordinance has been petitioned for the Town Meeting Ballot. This petitioned amendment would amend the Aquifer and Groundwater Protection Ordinance (AGPO). The amendment is to, “Amend Section 7. H. Prohibited Uses, by adding the following paragraph:

16. Industrial Uses as set forth in Article 5, Table 1.”

Article 5, Table 1 lists fourteen Industrial uses that are regulated in Belmont. Seven of those uses are particularly noxious and are listed simply to state that they are not permitted anywhere in town. They include Blast Furnaces, Smelters, Chemical and Fertilizers processing, Rendering Plants and Tanneries. The remaining listed uses are allowed in the I (Industrial) and/or the C (Commercial) District.

In 2007, Belmont, along with Tilton and Northfield, assisted by the Lakes Region Planning Commission, published a guidance document for development on the shared stratified drift aquifer. A stratified drift aquifer is one that is composed of well sorted glacial materials, mostly sands and gravels, saturated with ground water. Belmont’s AGPO was adopted recognizing the importance of the findings of the Tri-Town Aquifer Initiative. A key goal of the Tri-Town Initiative was, “Thoughtful planning which works to balance economic growth with groundwater protection.” Following the initiative, Belmont, as well as Tilton and Northfield, enacted their current AGPO as a means of guiding development while working to protect the resource. The results of the initiative were never implemented to prohibit economic growth.

The Tilton – Northfield Aqueduct Company (TNAC) has put forward an application that would make the WHPA for its municipal wells a GAA (a delineated well-head protection area – WHPA – for a public water supply under the NH Dept of Environmental Services’ (DES) regulatory scheme. Most of this GAA is situated within Belmont. Items 1 – 6 on the accompanying list from Belmont’s AGPO are the only prohibited uses under the DES regulation in a GAA. All of the other listed uses are allowed in a GAA but are already prohibited within Belmont’s APD. Some of the allowed uses in the I & C districts under Table 1 are already prohibited or regulated under the current AGPO. Part of Belmont’s oversight under the AGPO is a bi-annual inspection program – as opposed to the GAA’s once every three years inspection. Belmont currently inspects regulated businesses within the TNAC WHPA to insure compliance with the AGPO. It is worth noting that two of the more controversial uses that have recently been proposed within the APD would still be allowed under the proposed change. The motorcycle outdoor recreational facility would be allowed by Special Exception. The Cassella municipal solid waste facility is a use which is regulated under a comprehensive regulatory scheme by DES and a municipality is pre-empted from regulating it.

The accompanying map depicts the impact of the proposed amendment on Belmont’s ability maintain and expand its economic base. For all practical purposes, the I zone in town becomes non-existent, at least as it pertains to industrial activity. There are some commercial uses that would still be permitted. There are also some areas in the C zone where industrial uses would be prohibited. A currently legal existing use would be allowed to continue and could expand by Special Exception (Art. 11.A.2).
Happy New Year!! It’s hard to believe that it is 2016! What a year it’s going to be!!

The date has been set for the Presidential Primary. The election will be held on Tuesday February 9, 2016 at the Belmont High School Gym from 7AM – 7PM. As of this time you can no longer change your party affiliation. If you are going to be out of town on the date of the election, you can mail, email, or stop by the office to request an absentee ballot. Please keep in mind that you must send in a separate request for each person that wishes to receive a ballot, please indicate the address you would like the ballot mailed to, and your signature must be on the request. If you are registered as an Undeclared party affiliate, you MUST indicate which party’s ballot you would like to receive. Without that information we cannot send you a ballot! We hope to have the ballots in the office by the second week of January, in which case, you can stop by the office and cast your absentee ballot. If you are undeclared and vote at the polls, after casting your ballot, you may return to the new voter registration table and return your status to undeclared.

In other election news… the Town of Belmont’s Deliberative session has been set for Saturday, January, 30, 2016, beginning at 10AM at Belmont High School’s cafeteria. This is the time when proposed warrant articles are reviewed, and voters have the opportunity to discuss, and potentially amend the warrant articles that will be on the official ballot for the Town Election which will be held Tuesday, March 8, 2016. This is a very important step in the election process for our town. This is your opportunity to get out and get your thoughts and ideas heard. Your party affiliation holds no bearing on the town election. If you are going to be out of town on the date of the Town election, you can mail, email, or stop by the office to request an absentee ballot. Please keep in mind that you must send in a separate request for each person that wishes to receive a ballot, please indicate the address you would like the ballot mailed to, and your signature must be on the request.

**NOTICE TO BELMONT RESIDENTS**

Declaration of Candidacy for the March 2016 election will be accepted at the Office of the Town Clerk
Weekdays between the hours of 7:30AM to 4:00PM from Wednesday January 20, 2016 to Friday January 29, 2016.

**ONLY DECLARATIONS will be accepted between the hours of 4:00 to 5:00PM on Friday January 29, 2016.**

Please keep in mind that Friday, January, 29, 2016 is the last day we can accept new voter registrations at Town Hall for either election mentioned. After this date, you will have to register at the polls. Please remember to bring your official ID and proof of residency with you.

We will be sending out delinquent notices during the last week of January as well. These notices are to make you aware of any outstanding balances still owed from 2015. These notices are the first step of the lien process. Any unpaid amounts will be rolled into a tax lien on your account in May, 2016. It is important to clean up anything left on your account as the interest rate jumps up to 18% (from 12%) after the lien is executed. You can inquire about balances owed on our town website, www.belmontnh.org by going to the right side of the home page and clicking on the property tax/utility payments tab. Enter your email address, and you can look up your account by name of owner, property address or map and lot number. This can be used for informational purposes. You can also call our office for the amount owed, please keep in mind that interest is accrued daily on past due amounts but is updated daily on our online system. You may mail in your payment, use our town website for payment, or drop into the office. We accept Cash, Check, and now Credit Cards for payment. There is a 2.95% convenience fee added to any Credit/Debit card transactions.

We hope you start off the New Year with a bang and we are looking forward to an exciting year!!
Belmont Parks & Recreation

Cross Country Ski Lessons at Bolduc Park

January 9, 16, 23, 30, 2016
Saturdays
10:00 AM - 11:00 AM
$40 with own equipment
$70 with rental equipment

Belmont Parks and Recreation is offering Cross Country Ski Lessons at Bolduc Park in Gilford starting Saturdays, January 9th for 4 weeks. The program is for adults and youth with their own equipment or with rental equipment from Piche’s Ski Shop in Gilford. Lessons start at 10:00AM, renters should pick up equipment at Piche’s at 9:00AM before going to Bolduc Park for the lesson. In the event a day is cancelled due to weather, it will be made up the week(s) following January 30th. Bolduc Park is located at 282 Gilford Avenue, Gilford NH.

Space for this program is limited.

Registration forms are on our website:
Belmont Parks & Recreation
(603) 267-1865
www.belmontnh.org
4th Annual Lakes Region Leprechaun Leap
5k Fun Run/Walk ---- Saturday March 19, 2016

Lace up your sneakers and take a nice, brisk walk around a challenging 5k loop near the Belmont village area. Great event for the entire family! Registration form will be available soon at www.belmontnh.org.

Community-Wide Yard Sale

Buyers and sellers alike raved about the community-wide yard sale in Belmont last May, so start gathering items for this year’s sale scheduled for Saturday, May 14th! You can rent a space at the Tioga Pavilion or simply advertise on our yard sale map for a nominal fee. More details coming soon.

Community Street Dance on Sunday, May 29

DJ, Prizes, and Concessions. Last year’s dance was such a blast! Start the summer off with this fun community event.

Farmer’s Markets in 2016

Dates for the monthly summer Farmer’s Markets for 2016 are: June 26, July 31, August 28, & September 18. Vendor fees are $50 for all four market days or $15 if you choose to join us for just one day.

If you are interested in becoming a vendor for 2016, please contact Gretta Olson-Wilder, at events@belmontnh.org or call 998-3525.
