opportunity for further reductions. Some of the budget savings have come about as a result of staff changes which has allowed department heads to show savings in their budgets. I anticipate the Budget Committee will begin deliberations on the 2018 proposed budget on Tuesday, November 7th at the Corner Meeting House beginning at 6:30 p.m. The meetings can be seen on https://livestream.com/belmontnh.

**2017 Tax Bills**

We anticipated the 2017 Fall tax bills to be mailed by mid-October with a due date in early December. Please stay tuned to our website for information pertaining to the rate; I had anticipated providing information in my October newsletter article, however information needed to set the rate is not yet available from the Department of Revenue Administration. As always if you have any questions, please do not hesitate to contact my office at 267-8300 ext. 124 or townadministrator@belmontnh.org.

**Coffee and A Question**

The Board of Selectmen recently held a joint discussion session with Superintendent Michael Tursi of the Shaker Regional School District, while not very well attended by members of the community, we want to thank Superintendent Tursi for attending and participating in a frank discussion about taxes and fund balance.

**Route 106 and Seavey Road Intersection**

The Board of Selectmen and other departments have received a number of complaints about the work at the intersection of Route 106 and Seavey Road. We want to assure you that we have taken all of your concerns into consideration and a letter has been sent on behalf of the Town to the NH Department of Transportation requesting they review the intersection. This project was a NHDOT project and communities to aggregate purchasing electricity; the results of the RFP will be received within the next two weeks which we hope will also provide an

---

We are very pleased to announce that Allen Daisey of our Building and Grounds Department was named as 2017 Employee of the Year on Monday, September 11th at our Employee Appreciation luncheon. Allen always goes above and beyond to keep our buildings and grounds looking great and he is a pleasure to work with. Congratulations Allen!

**2018 Budget**

This year the Board of Selectmen requested that the Town’s department heads work diligently to propose a flat budget understanding that last year’s Town Meeting approved new Collective Bargaining Agreements with the Town’s 3 employee unions. I am pleased to note that at first glance they have done just that actually reflecting a slight decrease. There are still unknown factors which will have to be applied during the month of October such as health and dental insurance rates and the Town agreed to participate with other Lakes Region Planning Commission communities to aggregate purchasing electricity; the results of the RFP will be received within the next two weeks which we hope will also provide an
was built in accordance with their plans by the contractor. We thank everyone who has offered comment on the intersection and we will continue to work on your behalf to insure the safety of the commuting public.

Ladd Hill Phase 3 Project

The Ladd Hill project is nearing completion and we would like to thank the residents and commuting public for their patience during the project. This is the final year of work on Ladd Hill Road.

Heritage Commission and Other Vacancies

We continue to have vacancies on the Heritage Commission and the Budget Committee. Please submit your letter of interest to the Budget Committee for consideration at their first meeting in early November. Letters of interest in serving on the Heritage Commission will be forwarded to the Commission for their consideration and recommendation to the Board of Selectmen. Your willingness to volunteer and dedication to the community is greatly appreciated.

SMOKING

In order to protect the health, welfare and safety of the citizens of the town and all other persons also attending activities at any Town of Belmont facility or recreational park, no person shall, at any time, smoke any tobacco, tobacco related product, filter or other plant or weed except in such areas as are specifically designated for smoking by the Director and/or the Board of Selectmen or their designee.

Just a reminder that the Town of Belmont is an active member of Lakes Region Public Access Television which can be seen locally on Metrocast Channels 24, 25, and 26. If you are a camera buff and you have an interest in producing a show to be shown on LRPA, please contact the station at 528-3070 to discuss your idea. LRPA has made significant strides to improve programming this past year and its presence in the Lakes Region; we urge you to check out their website at http://lrpa.org.

Selectmen’s Meeting Schedule

Our meeting agendas are posted on the Town’s website at www.belmontnh.org, and on Facebook. We encourage you to attend our meetings or watch us live on https://livestream.com/belmontnh. Our next regular meeting is on Monday, October 16, 2017 at 5:00 p.m.

Just a reminder that school is open, we urge you to be aware and please drive carefully.

Friends group organizational meeting, Wednesday October 4 6 pm.
We will be discussing the basics of what friends groups do and starting work on organizational documents. If you can’t make the meeting but are still interested in supporting the friends group, please let us know so we can keep you up to date.
October is here.
The time of year for cozy nights and days filled with raking leaves and cups of hot apple cider.

October is also the time of year when the third issue water/sewer bills are due. The payments are due October 10, 2017. You can mail your payments in, stop by the office to say Hi, or use our town website www.belmontnh.org to make a payment. Please remember that using when the website to make a payment there will be a convenience fee added to your total, with an additional convenience fee added if you are using a credit card. WE CAN NOT ACCEPT VISA CARDS FOR PAYMENTS ON UTILITIES EITHER OVER THE COUNTER OR ON THE WEBSITE.

The month of October also brings the time of year when the DRA (Dept. of Revenue Administration) sets the tax rate for our town. You can expect us to be mailing out the tax bills around the second or third week of the month.

The Town of Belmont and City of Laconia hosted a special election last month to decide who will be our State Representative for Belknap County District 9. We share district 9 with the City of Laconia. The election was held at the Corner Meeting House and we had a turnout of 441 voters. Charlie St. Clair won the election and will be our new State Representative from Belknap County District 9!

If you would like to contact our new State Representative for Belknap County District 9 here is his information:

 Charlie St. Clair  
 PO Box 5416  
 Laconia, NH 03247  
 (cell) (603) 387-5944  
 (office) (603) 366-2000  
 Email him through his website, www.charliestclair.org

If you’d like to contact our Belknap County District 6 Representatives, here is their contact information:

 John Plumer  
 34 Bean Hill Rd  
 Belmont, NH 03220

 Michael Sylvia  
 216 Farrarville Rd  
 Belmont, NH 03220  
 (603) 707-8594

 Reminder:  
 Over Columbus Day weekend the NH DMV will be working on their computer system. What does this mean for residents of the Town of Belmont? While the Town Clerk/Tax Collector’s office will be open, on Friday, October 6, 2017, the Town can only process the Town portion of ANY motor vehicle transaction. (Renewals, Transfers, New registrations, Titles, etc….). Residents will then need to go to a State DMV location, such as Concord, to complete all motor vehicle transactions.

 Monday, October 9, 2017, Town Hall will be closed. On Tuesday, October 10, 2017, the Town and State will be unable to process ANY motor vehicle or driver’s licensing transactions including online requests. Our office will be open for other transactions on this day.

 Please keep in mind that your transaction WILL NOT be complete until both the Town and State portions are completed.

 The computer system is anticipated to be up and running as of Wednesday, October 11, 2017.

 If you have any questions, please contact the Town Clerk’s office at (603) 267-8300.
Thank you for your support of our summer Farmer’s Markets!

Studio Two at the Tioga Pavilion

FALL GATHERING BY THE RIVER
Tioga Pavilion, Mill St., Belmont

Sunday
October 8
4:30–6:30 pm

Enjoy a Free Concert and Hot Dog Bar.

Plans Underway for 2018 Events

Ideas for new events, such as a Craft/Hobby Show and a Scavenger Hunt, are unfolding for next year. If you have ideas for new events in our town, please contact Gretta Olson-Wilder at 603-998-3525.
Belmont Parks & Recreation

February 26, 2018 ~ Monday 7:30PM

$120 Loge - Lower Level Seats
$70 Balcony - Upper Level Seats

Join us to watch newly acquired Kyrie Irving, Gordon Hayward and Jason Tatum join Al Horford to take on Marc Gasol, Mike Conley and Chandler Parsons of the Memphis Grizzlies. Our trip departs from the Belmont Park & Rideshare (Route 106) at 5:15PM. Sit back and relax in our fully equipped motor coach. Our seats are in loge section #19 and balcony section #310 & 311. We will depart Boston following the game and anticipate arriving in Belmont around 11:45PM.

We will be travelling with the patrons of Gilford Parks & Recreation; Seats are limited; a registration form must be completed and accompanied by payment. Tickets are non-refundable unless the seat can be resold.

We require a minimum number of participants for this trip and will advise 45 days in advance should we need to cancel.

Belmont Parks & Recreation

Boston Theatre & Shopping Trip

December 2, 2017 ~ Saturday

Orchestra ~ $102
Balcony ~ $83
Shopping Only ~ $38

Our shopping and theatre trip this year includes everyone’s favorite Elf making his return to Boston with ELF The Musical at the Boch Center Wang Theatre! ELF The Musical is the hilarious tale of Buddy, a young orphan child who mistakenly crawls into Santa’s bag of gifts and is transported back to the North Pole. Unaware that he is actually human, Buddy’s enormous size and poor toy-making abilities cause him to face the truth. With Santa’s permission, Buddy embarks on a journey to New York City to find his birth father, discover his true identity, and help New York remember the true meaning of Christmas. This modern day Christmas classic is sure to make everyone embrace their inner ELF. The trip includes time to shop, sightsee or dine on your own. We also offer a shopping only option that does not include the show should you prefer to spend the day shopping, and taking in the sights on your own.

Our trip to Boston is via a luxury motor coach with restroom facilities. Please note this is an active trip and requires walking from central drop off points to the various venues. We depart the Belmont Park and Ride on route 106 at 8:30 AM, our first stop will be the Prudential Center and Copley Place Shops. Next stop the Theatre District for lunch on your own or shopping in Chinatown and Downtown Crossing. Our last stop of the day will be Faneuil Hall Marketplace for a leisurely dinner on your own or shopping and sightseeing. You will be within walking distance of all the fabulous North End Restaurants. We recommend you make dinner reservations any time after 5:45 PM, allowing walking time to the restaurant of your choice. We will depart Faneuil Hall Marketplace at 7:30 PM for arrival in Belmont approximately 9:00PM.

Space is limited, full payment and a registration form are required at the time of booking. Registration forms are located on our website or by contacting the recreation office.

Non-refundable unless your seat can be resold.

(603) 267-1865
www.belmontnh.org
The Belmont Fire Department spent a lot of time this September at the Belmont Elementary School and the Belmont Middle School. Both Belmont Fire Department and Belmont Police Department attended one night at the Belmont Elementary School and one night at the Belmont Middle School for their Wellness Fairs, teaching students, as well as parents, bicycle safety, evacuation plans in case of a fire, and the importance of checking your smoke detectors.

The following week, the Belmont Fire Department headed to the Middle School to do a presentation on the 9/11 attacks and the impacts it had on fire departments. Children got to try gear on as well as examine the types of tools that were used as firefighters climbed the stairs of the Twin Towers.
On September 1, 2017, the Belmont Fire Department took delivery of its new gear extractor and dryer. What is a gear extractor, you might ask? It is a washing and drying system that is made to clean our fire gear after fires and medical calls. Fire contaminants can expose firefighters to cancer-causing carcinogens and eventually weaken the gear meant to protect them. Blood and bodily fluids can further expose them to deadly diseases. That is why the NFPA recommends washing soiled turnout gear immediately after exposure to fire or bodily fluids. The NFPA also warns against cleaning gear in homes or public laundromats to avoid cross-contamination. Continental washer extractors properly clean turnout gear, removing contaminants and biohazards while preserving fabric integrity. Products of combustion have been linked to causing cancer in firefighters.

Our Town Administrator and our Board of Selectman were concerned about our firefighters’ safety, so we looked into an AFG (Assistance to Firefighter Grant) grant to help offset the cost of the extractor. At the beginning of 2017 Lieutenant Bavis worked hard, putting in many hours, to write up our grant request of $18,000.00. Months later, the department received a call from Senator Jeanne Shaheen’s office advising us that we had been approved for the grant. We are very excited to have our new washer and dryer. Clean gear is safe gear that can protect the men and woman of the Belmont Fire Department.
The Department of Public Works staff would like to congratulate Allen Daisey as the Town of Belmont employee of the year. Allen works closely with our department on many projects and his experience along with a positive attitude make it a pleasure for us to work with him.

Again, we would like to thank the Belknap County Department of Corrections residents for their continued work with our department. The help they provide to our department has been and is a great service to the Town of Belmont.

Ladd Hill Road - The final layer of asphalt will be applied on Friday September 29th and Saturday September 30th. Shouldering of the pavement with crushed gravel will take place after final paving has been completed. This will be the last step for completion of the project. Thank you to the many contractors for a job well done and to the residents for their cooperation during this project.
The Conservation Commission urges all private well owners to test their water.

Protect Your Family’s Health
Test Your Water Today for All Common Pollutants

Why should I test my well water?
Unhealthy levels of various contaminants are common in private wells in New Hampshire. Some of these contaminants have been linked to cancer and other diseases. Most of these contaminants have no taste, smell or color. You won’t know what’s in your well water unless you have it tested by a laboratory. State and local laws generally do not require testing of private well water. If you have a private well, the New Hampshire Department of Environmental Services (NHDES) strongly recommends that you have your well water tested — for all of the most common pollutants — to help protect your family’s health. If a test shows that your well water has contaminants in it, NHDES can help you consider water treatment choices that work best for the level of contaminants in your water.

How do pollutants get into well water?
Well water comes from rain and snow that soaks into the ground. As water seeps through the soil and rock, it can pick up pollutants and other materials that are present on or in the ground.

Some contaminants that are commonly found in well water at unsafe levels come from the rocks and soil that the water flows through. The most common in New Hampshire are bacteria, radon, arsenic, manganese, uranium and radium. For example, the U.S. Geological Survey estimates that one in five private wells in New Hampshire has more arsenic than is allowed in public water systems.

Other contaminants get into well water from human activities. Gasoline storage and spills, industrial/commercial activities, improper waste disposal and road salting can introduce toxic substances to the ground. Even typical residential activities, such as using fertilizers or pesticides too close to a well, spilling fuel and improperly disposing of household chemicals can contaminate well water.

What should I test my well water for?
The following tests identify common contaminants found in well water in New Hampshire. Many private wells have been tested according to the requirements of mortgage companies or at the recommendation of well drillers, water treatment vendors, etc., but often those tests do not include all of the common contaminants that can harm your health, especially if they were done years ago. The list recommended in this flier provides a cost-effective, reasonable overview of a well’s water quality. Contact an accredited laboratory for availability and pricing. It is not necessary to do all of these tests at one time.

- **Standard Analysis**
  This covers the most common contaminants (see the list on the next page). Some of these contaminants pose health-related concerns, while others only affect aesthetics (taste and odor).

- **Radiological Analysis**
  The rocks in New Hampshire contain naturally occurring radioactive elements that dissolve easily in well water. The recommended radiological analysis will test for uranium, analytical gross alpha and radon.
  Testing for radon in air may have been required by your mortgage company; however, radon and other radioactive elements are also common in well water in New Hampshire. NHDES estimates that approximately 55 percent of private wells in New Hampshire exceed NHDES’ advisory level for radon.

- **Volatile Organic Compounds (VOCs)**
  The most common VOCs come from compounds found in gasoline, such as MtBE and benzene, and from industrial solvents. MtBE can be found in well water even in remote areas.

- **Additional Tests**
  Circumstances specific to your well or property may require additional testing not described here. For instance, NHDES does not recommend routine testing for pesticides, herbicides or other synthetic organic compounds (SOCs), mainly because of the high cost. However, such testing might be a good idea if your water has elevated nitrite or nitrate concentrations and an agricultural source is suspected, or significant amounts of pesticide have been applied near your well.
  These less-routine tests may not be performed at all laboratories.
What will testing tell me?

The laboratory report you receive will show the level at which any of the tested substances were found in your water sample. The mere presence of a contaminant in your well water does not necessarily mean that there is a problem. However, when levels exceed state or federal health standards or recommended action levels, there may be a problem and you should take steps to fix it. There are a number of appropriate treatment methods that can remove contaminants from water. NHDES’ Be Well Informed web tool (see http://xml2.des.state.nh.us/DWITool/) allows a user to enter water quality results from a lab report into the application, evaluates the contaminants and recommends appropriate treatment options when necessary. You can print a report from Be Well Informed that summarizes recommended treatment options along with potential impacts to your health and/or home. NHDES also has fact sheets on its website covering all common water quality problems and their solutions. Before making any final treatment decisions, be sure to consult with a qualified treatment professional.

When should I test my well water?

NHDES recommends that prospective homebuyers test the water in a home with a private well before purchase.

Water quality in wells is generally stable, and if a change is going to occur, it occurs slowly. Thus the time between water quality tests, once you’ve purchased the home, can generally be several years if a well is properly constructed and located in a safe area. Bacteria and nitrate are exceptions; you should test for them every year.

The following conditions would call for more frequent testing:

- Heavily developed areas with land uses that handle hazardous chemicals.
- Recent well construction activities or repairs. NHDES recommends testing for bacteria after any well repair or pump or plumbing modification, but only after substantial flushing of the pipes.
- Elevated contaminant concentrations found in earlier testing.
- Noticeable variations in quality such as a change in taste, smell, or appearance after a heavy rain or an unexplained change in a previously trouble-free well, such as a strange taste or cloudy appearance.

When taking any sample, NHDES recommends that it be taken after a heavy rainstorm. These events tend to highlight conditions of improper well construction or poor soil filtration.

Learn More

For information about private well testing, treatment or accredited laboratories in New Hampshire, visit the NHDES website: www.des.nh.gov

Go to the A to Z List and select “Private Well Testing”
On October 11th, the Town Facility Strategy Committee is hosting an Open House and Listening Session at Belmont High School from 4-7:30 pm. Plan to attend if you'd like to learn more about Town Buildings and help develop options for their future use. There will be information tables and an overview provided with photos of some Town facility issues like tight office space in the Police Station and first floor of Town Hall, limited shelf space and accessibility challenges in the Library and creating an indoor space for youth and community recreation. There are opportunities for better use of existing buildings, as well as options for leasing or sale of buildings. The Committee invites local residents to join in, learn about existing needs and share your ideas about Town buildings.

You can stop in at any time during the Open House to participate or tune in on Lakes Region Public Access station. There will be public comment forms to provide your input at the meeting. At 6 PM there will be a short update on the Facility Strategy study and an opportunity to ask questions and provide feedback.

**Open House Schedule:**

4:00-7:30pm   Open House

6:00-6:30   Overview/update on Belmont Facility Strategy Committee. What we've learned, seeking input on what's most important, and how to help us shape some options to consider as a community.

If you are interested in learning more about this Town Facility Open House and want to get involved, contact Donna Hepp at dhepp3@gmail.com to get on the mailing/email list. Information updates will be also shared on the Town website and newsletter.
3 Week BEGINNER Class: October 16, 23, 30, 2017
Monday Nights ~ 5:30PM-6:30PM
$25 per person

6 Week Class: September 11, 18, October 2, 16, 23, 30, 2017
Monday Nights ~ 6:30 PM-7:45 PM
$50 per person

Parks & Recreation Function Room, 14 Mill Street

A calming, stress-relieving yoga class to stretch and strengthen the body gradually. Emphasis on breath awareness and the body, asanas, postures, are practiced at a gentle to moderate pace with attention to alignment and detail. The 6 week class is recommended for students with some yoga experience. The 3 week beginner class is for students with little to no yoga experience. This class series will introduce you to the benefits of yoga and give you tools to use it daily. Learn basic postures, techniques for breathing, reducing stress and increasing focus and some philosophies of yoga - practice for body and mind. Each class offers Asana (poses), balance work, breath work (pranayama) and relaxation. The classes are co-ed and appropriate for patrons 12 years and older, youth must be accompanied by an adult. Participants should bring a yoga mat. Yoga blocks and other equipment will be provided.

Advance registration is required and space is limited.

Registration forms are available on our website:
