

Belmont Master Plan

1992 Goals Review

**The following goals were among those included in the 1992 Master Plan.
Please give us your views -- tell us if these are still important to Belmont.**

New ideas are welcome – at this Community Meeting or in the future. Thank you!

1. Continue to protect the Tioga River Watershed by requiring development near wetlands to meet certain performance standards.

Important Not Important

2. Identify unique town environmental areas to protect and preserve for future generations to enjoy.

Important Not Important

3. Build and revitalize community identity through civic activities and regional promotion of Belmont advantage and amenities.

Important Not Important

4. Promote the development of quality, moderate cost housing options.

Important Not Important

5. Retain the dominant rural character, as still exists in Eastern Belmont.

Important Not Important

-OVER-

- 6. Encourage the development of additional residences and businesses in the Village area.
 Important Not Important

- 7. Identify and reserve land parcels for recreational use, especially considering the needs of youth and young adults.
 Important Not Important

- 8. Research further alternatives for public transportation and commuter service
 Important Not Important

- 9. Consider a feasibility study of a second water storage tank and water line extensions to the Seavey Road/Wildlife Boulevard neighborhood
 Important Not Important

- 10. Evaluate effects of development trends on town's infrastructure to minimize adverse impacts on the town tax rate.
 Important Not Important

Master Plan volunteers have been working since June, reviewing the 1992 plan & preparing for the community's future with new ideas.

Tonight and over the next months, your ideas & comments are encouraged. Please share your idea(s) for the Belmont Master Plan:
