The New Hampshire Building Officials Association was recently recognized as the National 2015 Chapter of the Year through the International Code Council at their annual business meeting in Long Beach, California. This honor is bestowed upon one membership chapter throughout the ICC national organization commending excellence and achievements in contributing to the code enforcement profession.

Established in May 1965, the New Hampshire Chapter has been celebrating 50 years of helping to build better communities through adoption, education and enforcement of building and life safety codes. This award acknowledges the role that the New Hampshire Building Officials have served in leadership, dedication and service, not only in our State of NH, but within the New England region and Nationally.
