TILTON — Rusty Drew Jr., of Rusty's Towing and Recovery will be adding a few more trucks to his fleet after purchasing the towing portion of Norm's Auto Body.

The transaction between the two businesses was effective as of June 1.

By selling off the towing portion of his business, Bill Camire, owner of Norm's Auto Body, plans to open a second garage on Route 106 in Belmont, at the former McGreevy Shop across from AutoServ. His original location is still located at 752 Union Road in Belmont.

"We had talked about it for a couple of years," said Camire. "The towing part was actually a secondary part of my business, for Rusty it's his first — that's what he does.

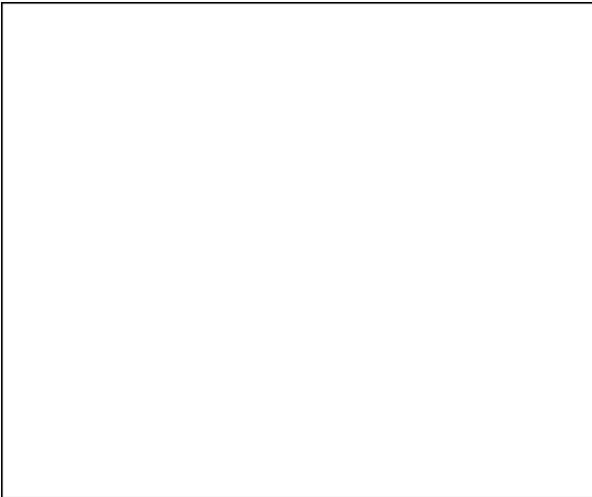

Now I can focus more on the auto body part."

Camire said he originally started the towing portion of the business to bring work into the body shop. However, according to Camire, over the past few years, the economy had slowed that side of the business for him.

By acquiring the towing portion of Norm's Auto Body, Drew will build his towing fleet from seven trucks to 10. He plans on painting the trucks in the near future to make the entire fleet uniform.

"I'll leave the trucks as is for a few days to get any questions answered," Rusty said. "My goal is to continue providing our community with satisfaction and extend the same great service to Norm's loyal customers. I want to say thank you to all of our amazing customers, both current and new. We couldn't have done it without you."

Drew has owned and operated Rusty's Towing and Recovery for more than 15 years.

For more information about the tow businesses, visit Norm's Auto Body at: www.normsautobody.net. Rusty's Towing and Recovery can be contacted by calling 524-7377.
