(Indoor location is Corner Meeting House, Fuller and Sargent Streets)

Built in 1908 by citizen contributions, the Bandstand was repaired and re-roofed in the 1970s by Belmont Beautification Committee volunteers, led by Mrs. Whitman "Beth" Ide and contractor Neil Whitcher.

In 2008 the Belmont Heritage Commission launched a campaign to stabilize, repair and restore the Bandstand. This series is gratefully dedicated to a caring community and citizens that made the next century of this special place possible. The restoration project was honored this May by the *New Hampshire Preservation Alliance* for outstanding achievement.
